

## A Table for One Million RPG Magic Item Names

This table can generate the names of up to 1,000,000 possible magic items.

Roll D100 for each of columns 2, 4 and 5 to get a result.

Examples: You roll 03, 34, 59 and get *“The Sword of the Shattered Doors”*, or you roll 89, 56, 39 and get *“The Prism of Bound Dragon”*.

What these items are, who made them, what they can do, whether they are good or evil, cursed or a blessing, and their origin and history is up to you!

The words in columns 2 and 5 may be singular **or** plural, as the GM deems best. Column 3 may be *“of”* or, *“of the”*, or something else the GM likes.

If the result doesn't satisfy the GM's needs, feel free to shift up or down the columns until you find a suitable combination.
